SARUM
ACADEMY

Dear Parents and pupils

I am delighted to finally release our OfSTED report, a copy of which accompanies this letter. Please dig deep in your child's school bag.

The inspection team were extremely impressed by the Academy and the ambition we all share. They commented on the high quality of care and support offered to young people both academically and pastorally. The sharp focus on teaching and learning and the positive relationships between teachers and pupils which contributes significantly to an incredibly positive learning environment. Pupils take great pride in their work and teachers expectations are high. It was also wonderful to hear from the pupils themselves that the support offered by older pupils ensures that a good sense of community permeates.

It is a pleasure for me to read such positive praise for the school and its community, and recognition of the contribution we have all made in achieving some of the best examination outcomes in Wiltshire. It is testament of a school that values each member of the community and works relentlessly to add value to their lives.

Whilst the report gives me immense satisfaction who knows where our journey might take us. For me personally I am immensely proud of the hard work and dedication of every member of staff, every pupil, the Governors and members of the community who have contributed to our success and by all admissions the transformation to a Good school at the very least. Together we worked hard and achieved more.

Please enjoy reading the report and take pride in what you have achieved.

Yours sincerely

Mr Jonathan Curtis
Headteacher
Sarum Academy
